

A person with long blonde hair, wearing a red apron over a dark t-shirt, is working on pottery in a studio. They are standing at a wooden table covered with various pottery items, including several round and rectangular trays or plates. The person is holding a small, light-colored object, possibly a piece of pottery, and appears to be working on it. The background is slightly blurred, showing more of the studio environment.

Green granite naturally contains metallic particles that attract magnets.

Its density also makes it highly resistant to stains — even red wine or espresso won't leave a mark if wiped within hours.
